## SUMMIT ADVANTAGE

Summit, **innovative** and **proactive**, understands that **regulatory involvement** and **continuous development** are essential to quality service. In addition to **experienced senior management (60 + years)**, **qualified operations managers** and **trained field staff**, Summit possesses a **significant advantage**: we are experts in numerous other services that can potentially impact each other. For example, drilling waste management decisions can impact the direction and cost of future reclamation programs. This **forward-thinking** approach applied to our **integrated service** line is a major reason why Summit is the industry leader in providing drilling waste management services.

## ENVIRONMENTAL SERVICES RELATED TO DRILLING WASTE MANAGEMENT

Summit provides integrated environmental services. Some of these services compliment drilling waste management and when managed together increase efficiencies and provide cost effective turnkey solutions.
